

Engagement Area Coordinator Report: July 2008

Mats Rynge, John McGee

- Most active users recently
 - Jinbo Xu et al, Schultz, Wilhelmsen, Kurz
- Activity with new users
 - PRAGMA, New Jersey, Humberto (PR), SURA (dwang), JSTOR, Wilhelmsen,

A busy week ... 3rd week of July, 2008

Issues

- Reporting: easily view all activity for VO members (VO-View)
- Reporting: easily view all activity for a resource. Request from SBGrid. (ResourceOwner-View)
- Have been pushing for usage at NERSC: Kevin Wiehe, Damien Paggi, Krishnan, Tao Wu.
 - We help them get accounts, run simple jobs, then we are out of the loop. We cannot see what they are doing, or monitor proactively like we do with MatchMaker users

“Stalled” Engagements

- Not recently active, but not forgotten
 - WISDOM
 - ORNL (Krishnan)
 - Richard Buttimer (UNCC math finance)
 - John Beggs
 - Kuhlman Lab
 - NIST video processing

- Activity with infrastructure/operations
 - RESS, SBGrid, OSG 1.0 validation
- Activity with campus grids
 - SBGrid, UNC-Chapel Hill, Duke, New Jersey
- McGee's conversation with Diana Rhoten (CI-TEAM NSF PO) re user engagement team activity with campus grids – blurred in both directions with Goasguen bringing on new users
