**1. How was the session/contribution attendance
(check all that applies)?**[Create Chart](#)[Download](#)

	Response Percent	Response Count
Small session, few attendees	0.0%	0
Had a good number of attendees <input type="checkbox"/>	50.0%	2
Too many attendees for the room <input type="checkbox"/>	50.0%	2
Too many attendees to receive sufficient individual attention/help	0.0%	0
Attendees were distracted	0.0%	0
Attendees asked questions <input type="checkbox"/>	50.0%	2
Attendees completed the tasks in the Hands-on <input type="checkbox"/>	75.0%	3
Attendees could not complete because of missing prerequisites	0.0%	0
Attendees could not complete because of lack of time <input type="checkbox"/>	25.0%	1
Attendees could not complete because of unexpected difficulties <input type="checkbox"/>	25.0%	1
Hide replies Other comments about session attendance (please specify)?		2

1. Twiki and pacman cache were down during first part of my hands-on, it threw us for a loop. Thu, Aug 13, 2009 2:46 PM [Find...](#)
2. One attendee was not able to finish due to problems configuring some associated software (gums). The focus of this particular session (Bestman/Hadoop) installed with few problems, however. Tue, Aug 11, 2009 4:25 PM [Find...](#)

4. Thoughts about Adobe Connect (check all that applies)?

[Create Chart](#)[Download](#)

	Response Percent	Response Count
Don't know Adobe Connect <input type="checkbox"/>	33.3%	1
Easier than other collaboration tools	0.0%	0
More complex than other collaboration tools	0.0%	0
Equivalent to other collaboration tools <input type="checkbox"/>	33.3%	1
Was ok to use	0.0%	0
Made presenting more difficult <input type="checkbox"/>	33.3%	1
Was heavy on my laptop	0.0%	0

[Hide replies](#) Other comments about Adobe Connect (please specify)? 2

1. Ditch it, it is worse than worthless. Thu, Aug 13, 2009 2:46 PM [Find...](#)
Doesn't support Linux well. It's just a badly conceived product. No good way to follow a multi-window Linux desktop. Would do better with just a video cam on the screen, projecting to the far end vidcon.
2. My personal preference is to use Evo Tue, Aug 11, 2009 4:25 PM [Find...](#)
for collaboration, as it supports desktop sharing and can also be used to record the entire video/audio for the meetings. It also supports HD cameras for high definition video.

1. Overall this meeting went much better Thu, Aug 13, 2009 2:46 PM [Find...](#)
than last year.
Site admins in the tutorials, both GUMS and CE, came prepared.
Also the GUMS HA tutorial is too much to present in

one hour although I did get farther this time than I got last year.
