

OSG Metrics in Year 3

- Last year, we brought up the idea of “internal metrics” but weren’t able to follow up due to time.
- We’d like to revive this idea and integrate it into the formal funding agency reports.
 - Benefit for the OSG to allow it to ‘measure itself’
 - Allow us to track down more metrics than one person can generate!

Internal Metrics

- In the next few weeks, we'll be contacting all the areas.
 - If you don't want me to pester you, be proactive.
- I'll be "coaching" you on picking 2-3 metrics against the following criteria:
 - Relevance to your area.
 - Easy to measure for you! You will be responsible for doing the measurements and reporting them to me.
 - Relevant to the original OSG workplan.
