

Metrics Activity

- Recent work:
 - Working with James Weichal to provide measurements.
 - Monthly reports to JOT, WLCG.
 - Weekly list of top metric concerns.
 - Improvements to the Metrics webpages; trying to use this to automate the monthly reports as much as possible.
 - Finished RSV reports?
- Current objectives:
 - Finish the final Year 2 metrics document!.
 - Start on Year 3 metrics.
 - Year 3 to include input from area coordinators.
 - Start “advertising” Gratia better.
- Concerns:
 - Nothing “huge”. Final Metrics document seems to be slipping well into October.
 - Work load seems to be increasing, but hours in day don’t. Not unmanageable.

WBS Watch

- Everything is looking good
 - As noted, Final metrics document will spill into the next year.
 - Ramping up Metrics activities earlier this year.
