

Integration and Sites

Rob Gardner

Area Coordinators meeting

April 24, 2008

Current Initiatives

- WBS 1.3.1.1 – Integrating the OSG 1.0 release
- Persistent ITB preparations
 - ITB 0.9 deployment
 - CE testing and validation
 - SE based on dCache
 - RSV SE probe testing
 - Local Gratia collector
 - VO validation
 - Documentation

Since last report

- Completed WS Gram testing report from the Integration group
 - <https://twiki.grid.iu.edu/twiki/bin/view/Integration/WSGramValidation>
 - Several studies complementing the work at UCSD were made with similar findings in terms of scalability and latency improvements
 - For details see: <https://twiki.grid.iu.edu/twiki/bin/view/Integration/WSGramReport>

Since last report...

- Also a few VTB cycles in advance of ITB 0.9, testing of VDT 1.10.0.
- ITB 0.9 install-fest for persistent and other test sites
- First steps in technical documentation readiness for OSG 1.0 taken
 - Starting from re-organized ReleaseDocumentation from OSG 0.8
 - Though entire set will need community review
- Sites Coordination (WBS 1.3.2)
 - OSG all-hands
 - Charles, Jeff and Suchandra inventoried site admin tools
 - Focus on local Gratia collector for admins
 - Charles to work on aligning ReleaseDocumentation with Grid school materials
 - Site admins telecon next week

Concerns

- Opportunistic use-cases for storage elements
- Client rationalization for WLCG; see further meeting notes
 - <http://www.usatlas.bnl.gov/twiki/bin/view/Admins/ClientTools.html>
- Efficient access to local storage from wn-client
- OSG 1.0 release
