# Introduction:

All Virtual Organizations registered with the Open Science Grid must abide by a common set of basic rules. This document lists those basic rules.

# Virtual Organization Management Usage Agreement:

Each Virtual Organization registered with the Open Science Grid is responsible for maintaining the list of registered members of that Virtual Organization together with such personal contact information as is necessary to contact the individual members of the Virtual Organization.

Each Virtual Organization registered with the Open Science Grid is responsible for maintaining the Virtual Organization registration information with the Grid Operations Center of the Open Science Grid, including, but not limited to:
- Virtual Organization Membership Service(s)
- Virtual Organization Administrator(s)
- Virtual Organization Support Center(s)
- Virtual Organization Security Contact(s)
- Virtual Organization Charter (stated Goals and Policies).

Each Virtual Organization registered with the Open Science Grid is responsible for insuring that the registered members of the Virtual Organization only run applications that are within the scope of the Virtual Organization Charter, previously registered with the Open Science Grid, and applications execute on sites that have usage policies which are compatible with the Virtual Organization Charter.

Each Virtual Organization registered with the Open Science Grid shall insure that their members shall not use the GRID for any unlawful purpose and not (attempt to) breach or circumvent any GRID administrative or security controls and shall respect copyright and confidentiality agreements and protect GRID credentials (e.g. private keys, passwords), sensitive data and files.

Each Virtual Organization registered with the Open Science Grid is responsible for assuring the collection, maintenance and retention of Virtual Organization accounting information.

Each Virtual Organization registered with the Open Science Grid shall immediately report any known or suspected security breach or misuse of the GRID or GRID credentials to the incident reporting locations specified by the Open Science Grid and to the relevant credential issuing authorities.

Each Virtual Organization registered with the Open Science Grid agrees that their use of the GRID is at their risk. There is no guarantee that the GRID will be available at any time or that it will suit any purpose.

Each Virtual Organization registered with the Open Science Grid agrees that logged information, including information provided for registration purposes, shall be used for administrative, operational, accounting, monitoring and security purposes only. This information may be disclosed to other organizations anywhere in the world for these purposes. Although efforts are made to maintain confidentiality, no guarantees are given.

Each Virtual Organization registered with the Open Science Grid agrees that the Resource Providers, the VOs and the GRID operators are entitled to regulate and terminate access for administrative, operational and security purposes and shall immediately comply with their instructions.

Each Virtual Organization registered with the Open Science Grid is agrees that they are liable for the consequences of any violation of their registered members of the Open Science Grid Acceptable Usage Policy and the above conditions of use.
