OSG's Community-Focused Architecture

Communities...
(LHC, LIGO, SBGrid, Campuses...)

OSG

Consultation Services:
- Community
- Security
- Architecture
- Education/Training

... have **users**,
application developers,
site administrators,
researchers, students etc:

Production Services:
- Front-line support
- Security
- Info/monitoring
- WLCG Interaction
- IT Services

Job management
Data management
...

... may use
custom **services** in
addition to OSG's:

Software Services
- Software Distribution
- Software Evaluations
- Support

...may provide diverse
resources via one
or more autonomous sites:

| Compute Interface	Storage Interface
Site Fabric	System Status Accounting Security

There is a sharing of software, operational services,
and knowledge between the communities
and OSG in each of these areas.
